I-66 Inside the Beltway Design Public Hearings January 25, 26, and 27, 2016

The Virginia Department of Transportation (VDOT), in partnership with the Virginia Department of Rail and Public Transportation (DRPT), will host Design Public Hearings for the Transform 66 Inside the Beltway Project on January 25, 26, and 27, 2016. Information on how dynamically-priced toll lanes will operate on I-66 inside the Beltway, as well as proposed locations of toll gantries and pricing signs will be provided. All of the hearings will include the opportunity to view project displays and attend a formal presentation, followed by a public comment period.

The I-66 Inside the Beltway Project involves converting I-66 to dynamically-priced toll lanes in the peak direction during morning (eastbound) and afternoon (westbound) rush hours between I-495 (the Capital Beltway) and U.S. Route 29 in Rosslyn, along with implementing a series of multimodal improvements that will benefit toll users of I-66.
