## ***Save The Date*** ***Transform 66 Inside the Beltway*** ***Public Information Meetings***

VDOT and DRPT will host Public Information Meetings for the Transform 66 Inside the Beltway Project. The project involves converting the existing I-66 High Occupancy Vehicle (HOV) lanes to High Occupancy Toll (HOT) lanes in both directions during morning and afternoon peak travel periods between I-495 (the Capital Beltway) and U.S. Route 29 in Rosslyn, and a series of multimodal improvements that benefit I-66.

Vehicles with three or more people (HOV-3+) will travel the lanes for free during peak hours, while vehicles with fewer than three occupants can choose to pay a toll. Proposed improvements are intended to move more people, enhance connectivity and

improve travel reliability on I-66.
